

# Fruitful Malmesbury

## Food Map

**I'm on the Food Map, please collect our fruit**

### **Picking and Collecting Etiquette Guide**

- Check that the fruit you are picking is on the map
- Do not take more than you are going to eat or use before it goes off
- Don't pick something that isn't ripe yet, leave that for the next visitor
- If it is high, leave it for the birds
- Never dig up a plant, shrub or bush
- Only pick directly from plants and trees if the owners have explicitly given permission. Many owners prefer to put out their harvest *for collection* when crops become ripe

*NB. If you plan to forage elsewhere, always ask for permission from the land owner and always leave some produce for wildlife*
